ABOUT ME

| **Final Year IS Student** | **Software Developer** | **Data Scientist** | **AI & ML** |

Final-year Information Science Engineering student with hands-on experience in Software Development, Machine Learning, and Computer Vision. Proficient in Python, Java, SQL, Flask, Streamlit, and OpenCV, with a strong foundation in DSA, DBMS, OOP, and Operating Systems. Passionate about building scalable AI-driven applications and solving real-world problems.

EDUCATION

Sir M. Visvesvaraya Institute of Technology

2023 – 2027

Bachelor of Engineering in Information Science Engineering

Bengaluru, Karnataka

- **Engineering Aggregate** — CGPA: 7.13
- **12th/PUC Marks Percentage** — Percentage: 67%
- **10th Marks Percentage** — Percentage: 77%

SKILLS

Languages : Java, Python, JavaScript, HTML, CSS

AI/ML : Scikit-learn, OpenCV, MediaPipe, Pandas, NumPy, Matplotlib, Deep Learning, Computer Vision

Frameworks : Flask, Streamlit

Databases : MySQL, MongoDB

Core CS Subjects : Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems

Tools : Git, GitHub, VS Code

PROJECTS

CricketVision AI: Automated Talent Identification & Biomechanics Analysis

Apr. 2026 – June 2026

Tech Used: Python, Streamlit, Scikit-Learn, OpenCV, MediaPipe, NumPy, Pandas, Plotly

- Built an AI-powered cricket analytics platform using Streamlit, OpenCV, and MediaPipe.
- Implemented Random Forest Regression to predict player performance and rankings.
- Developed a real-time biomechanics pipeline for pose estimation and joint-angle analysis.
- Created an interactive dashboard for performance visualization and insights.

CodeAudit AI: Intelligent Static Code Analysis & Repository Review Platform

Apr. 2026 – June 2026

Tech Used: Python, Flask, JavaScript, HTML, CSS, REST API, GitHub API, Radon, Static Code Analysis, JSON, CORS

- Built a full-stack static code analysis platform using Flask and GitHub APIs.
- Integrated Radon to evaluate cyclomatic complexity and code maintainability.
- Automated repository analysis and generated code quality metrics.
- Designed an interactive dashboard for code health visualization.
